

Dear FDA,

1/18/01

This card is in reference to docket #:
98P-0151/CP1. I am urging you to please
end the downed animal trade. Injured &
sick animals should not enter the food chain.
There is a risk of bacterial contamination
& BSE. Furthermore, it is impossible to
humanely move these poor ill creatures.
Removing the market for downed animals will
encourage the industry to provide better care
and handling of these animals to prevent
injury & sickness in the first place.

Sincerely yours,

Mary Sewall
